Disaster Medicine

EMAIL: noredelina@moh.gov.my
edlin_mn@yahoo.com

Dr. Noredelina is a very experienced emergency physician with over a decade of experience in providing critical care and disaster medicine. During her five years of service at Hospital Miri Sarawak, she developed a passion for Clinical Toxinology and Wilderness Medicine. Currently, she serves as a consultant for Remote Envenomation Consultations Services (RECS), and is an executive committee member for both RECS ASEAN and the Malaysian Society on Toxinology (MST). She is also part of the Special Interest Group (SIG) in Clinical Toxinology at the College of Emergency Physicians Malaysia and acts as a resource person for the Malaysia Biodiversity Information System (MyBIS) under the Ministry of Energy and Natural Resources. In addition to her professional roles, Dr. Noredelina actively participates in educational programs for both healthcare providers and the public.
